

32. Apparatus for refurbishing a support frame as claimed in claim 30, wherein additional means is provided for applying plastics material along each of the surfaces to which the wirecloth is to be attached prior to or after wirecloth has been stretched over the support frame, so as to increase the amount of plastics material available to bond the wirecloth to the frame.

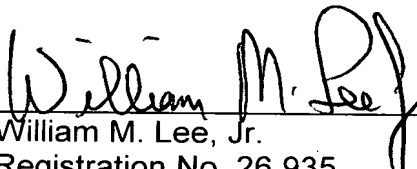

REMARKS

The above amendments are being made in order to properly identify the parent application, as well as present, for consideration, what were formerly claims 1 - 3, 6, 7, 13-16 and 18-20 in the parent application.

Examination of the application on its merits is awaited.

Dated: December 18, 2001
